HOW TO READ THE TWO PAGES

46 source-evidenced outer component variants: 12 caps, 6 mist, 7 pumps, 9 bulbs, 9 tassel bulbs, 3 droppers.

Reducer is an additional insert in reducer-plus-cap assemblies. It is not another cap finish.

The shared 18-415 rail identifies candidate bodies. Actual offered assembly counts vary by bottle.

See body-component-coverage.csv for exact observed record counts; verify seating and tube length.
